Year 3/4 Curriculum Flyer – Autumn 2

The living world

Geography

Biomes and climate zones

- Use world map to explore climate zones
- Understand the features of different climate zones
- Understand biomes and the similarities and differences between them

Science

Animals including humans - food chains

- Understand food chains and identify the different components.
- Identify producers, predators and prey within food chains.
- Grouping and classifying living things.
- Understand that changing environments are dangerous to living things.

Computing

Logos

- Design, write and debug programs
- Use sequence and repetition
- Work with programming languages

Design & Technology

Biscuit bake off

- Explore different biscuit designs and develop ideas for our own biscuit.
- Select ingredients and use practical skills to prepare and bake biscuits safely.
- Evaluate our finished biscuits against our design criteria.

PE

Tag Rugby

- Develop throwing and catching skills to improve accuracy.
- Practise passing backwards, running with the ball and working as a team to maintain possession.
- Learn to use evasion techniques, such as sidestepping, to avoid being tagged.
- Apply our skills in small-sided tag rugby games, demonstrating teamwork, fair play and an understanding of the rules.

RE

Pilgrimage

- Explore why pilgrimages are important to people of different faiths.
- Learn about special religious places and the journeys people make to visit them.
- Reflect on why places can be meaningful to individuals and communities.
